

RFM Lockers

Locker spare parts

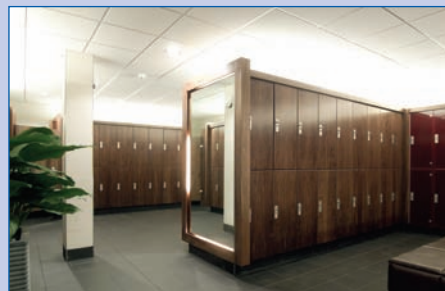

Locker Doors

Identify your material type

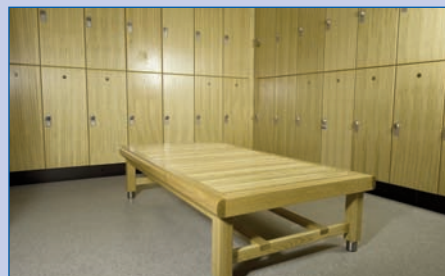

To order spare doors, you will need to tell us the finish of your lockers. They are most likely to be Cherry, Walnut, Maple or Oak.

Cherry Wood

Walnut Wood

Oak Wood

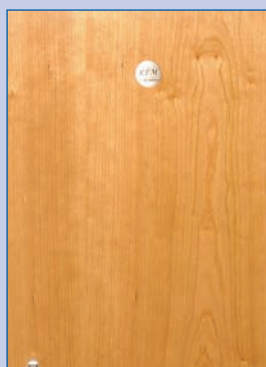

Maple Wood

Door Types

What is your door type

Your clubs have a variety of door styles, some of the common ones are below. To manufacture spare doors, we need to know the material type, e.g oak (see page 4), the door type, e.g D1 and the edge type, e.g E1 and the door height and width.

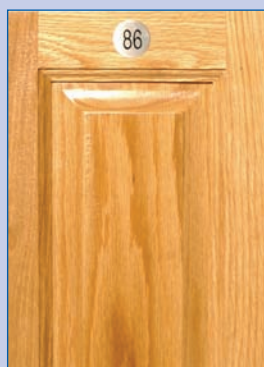

To manufacture spare doors we need to know 10 sizes/specification details. *That's why RFM Lockers may ask you to send a locker door which will be returned to you with the new ones*

D3/E1
Veneer Pencil
Round edges
Doors (excludes fittings)

1-4	56.26
5-9	35.46
10-49	32.56
49-99	30.66
100+	26.45

the E2 edge is an additional £5 per door

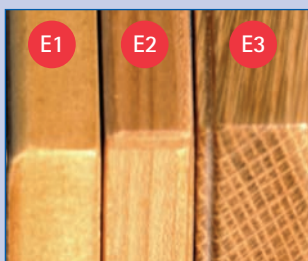

D1
Raised and Fielded

Oak/D1/E4 £80.51

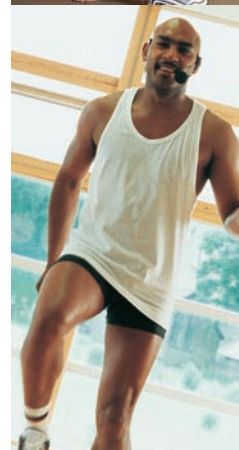

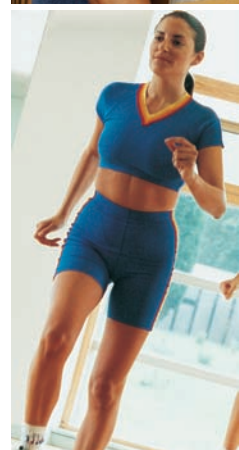

Your old doors are unlikely to exactly match your new ones as they are made from wood and each log is different. We suggest that you group the new doors together in your locker room. All doors will have a pencil round edge unless specially requested.

What is your edge type

From left to right:
 E1.Pencil Round
 E2.3mm or 5mm Lipping
 E3.Raised & Fielded

Locks and Latches

ASSA Latch Lock

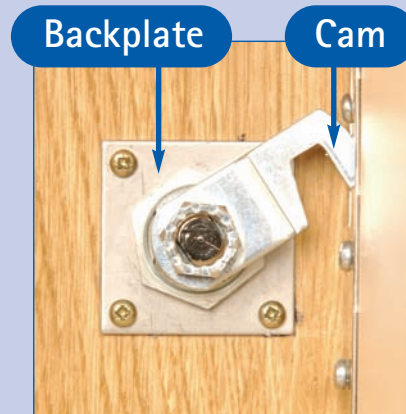

L1: Assa Latch Lock

Front View

Chrome polished lock on a flat metal plate which prevents the padlock from scratching the door.

Scratchplate:			Lock:		
L1SCA	1-10	£2.31	L1LOA	1-10	£8.84

Vanities

Vanities

Ridgeway manufacture bespoke vanity units. Whether you need to replace a single vanity unit or replace all of your vanity units with a new look, we're here to help.

TIP – Wooden Vanities – Most wear occurs to vanity top. Tops can easily be replaced and are inexpensive. If you can work out how to get the top off, fitting a new top will be very easy.

Toilets

Toilet Cubicles & IPS Panel

Both toilet cubicles and IPS panels are manufactured from Solid Grade Laminate (SGL) which is a synthetic hardwearing surface. It's durability makes it ideal for the leisure industry. The toilet cubicles are fully framed giving the structure of them strength.
